REPORT OF HEALTH OFFICER

I herewith submit my report as Health Officers for the year ending January 31st, 1930.

The following is a list of the contagious diseases reported the past year: Measles 6, whooping cough 5, scarlet fever 2.

I have had several complaints about toilets and sink drains, which I have endeavored to look after and have trouble corrected. More complaints have come to me about some of the town cesspools than from any other source. One near the post office and one opposite the residence of Daniel Nithin. I know of no other way to abate the trouble but to disconnect all pipes leading to them, and that would cause trouble and expense to all connected to them.

Twice during the year I have sent samples of milk, taken from dealers in town, to the state laboratory of hygiene for examination, with the following report. The samples were all well above the statutory requirement as to composition. Two, however, contained a little sediment.

About once a month samples of our town water have been sent up for examination and report has been excellent with but two exceptions where clay was found in same.

As regards the town sewerage system, it is my

opinion that some action should be taken at once to improve the same.

Some of our stores in town still persist in displaying candy and food without being protected from flies and filth, and I wish to again warn you, that unless this custom is discontinued, some one will say "good morning Judge."

Why not let us cooperate, obey the health laws, avoid trouble, live in peace and try to be happy and prosperous.

Respectfully sumbitted,
GEORGE A. GILMORE,
Health Officer.

In order that the citizens of our town may know what is being done for the children, the following report is respectfully submitted by Eunice I. Hardy, Rockingham County maternity and infancy nurse.
